Except for a few hybrids, corn plants were standing very well at harvest, This could be one of the nicest plots for the year. Overall rating for the plot is 9 out of 10. (10=best)*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
